## CHOOSE YOUR SPECIAL THANK YOU GIFT

**Make a gift of \$100 or more and select one of the following exceptional UC Press books as a special thank you gift:**

- New Classic Winemakers of California*, by Steve Heimoff

An intimate survey of a multi-billion dollar business with a global reputation reveals the changing trends and issues facing California winemaking.

"Steve Heimoff offers insights into the personal histories and viewpoints of America's top winemakers....This is a rich read for anyone who adores California wines."

—*San Francisco Chronicle*

- The Animated Man: A Life of Walt Disney*, by Michael Barrier

Noted animation historian Michael Barrier offers a portrait of Disney as a flawed but fascinating artist whose work still commands the attention of audiences worldwide.

"This book is important not just as a biography, but also as a cultural history that provides great insight to one of the best-known creative minds of the twentieth century."

—Daniel Goldmark, author of *Tunes for 'Toons: Music and the Hollywood Cartoon*

- Life as It Is: Biology for the Public Sphere*, by William F. Loomis

Concise and accessible, this book considers some of the most controversial issues of our day from a biological perspective: abortion, euthanasia, engineered evolution, and the future of sustainable life on this planet.

"[A] highly provocative book. . . . Loomis is a careful and clear guide to the historical, social, and political aspects of biology, making this overview both thorough and daring."
